Dec. 1, 1864.

MAUA BANK,

CALLE CANGALLO, Nos 101—103

The Offices of this Bank having been removed to the above spacious building, in order to suit the increasing flow of business, the public is informed that the following transactions are carried on in currency and specie in this Bank —

First—Bills and obligations with good signatures are discounted on conventional terms.

Second—Money is advanced on mercantile and other securities approved of by the Manager.

Third—Accounts current are opened with Merchants or other parties who may prefer depositing endorsed and transferable securities, against which they may draw up to an amount previously convened under conditions established for such class of operations

Fourth—Money is received in account current, bearing interest from day of deposit, which is accumulated in favor of the parties every three months, the depositors being allowed to retire at any time, by means of cheques, part or the full amount at their wish, save when the quantity exceeds three hundred doubloons or one hundred thousand dollars currency, in which case forty-eight hours' previous notice is required to be given at the Treasury of the Bank.

Fifth—Bills or letters of credit are drawn and taken on Montevideo, Rosario, Sta. Fé, Salto Oriental, Paysandu, Rio Janeiro, and other places in the Brazils, England and France, as also on other places, of which notice will be given hereafter

Finally, the Bank undertakes and executes all legitimate transactions within the orbit of banking operations.

The establishment is always open from 9 a m till 4 p.m.

Royal Insurance Company.

FIRE AND LIFE.

CAPITAL TWO MILLIONS STERLING.

This important company, in many respects the greatest of its kind in the present age, has appointed an agency in this city. The head offices are in London and Liverpool with branches in Dublin, Edinburgh, Glasgow, Manchester, Bristol, Birmingham, Sheffield, Leeds, Newcastle, Southampton, Montreal, Toronto and other cities.

The ROYAL is remarkable; for the promptitude and liberality of its settlements: for the largest life bonuses (£2 per cent per annum) ever continuously declared during 15 years by any Co.; for the enormous extent of its transactions, shewing £ 00,000 in new life assurances for 1862, and a Fire revenue of £300,000 per annum; for its security, which has given rise to the proverb "as safe as the Royal;" for the accumulated funds in hand, over one million sterling; for its annual income, over half-a-million sterling; and for the correct calculation of its mortality tables. Hence the English press of all countries, including over 20 leading papers, speaks in the highest terms of this company.

The report for 1863 shews that all the property of the Co. amounting to £846,070 is real and substantial property; " the amount now exceeds one million sterling. The increase, during 14 years, of Fire business was 900 per cent, and on Life 1350 per cent.

MESSRS. H. A. GREEN AND Co. are authorised to issue policies for Fire and Life to a very large amount, at moderate premiums, the Co. being anxious to extend its foreign business, which already shews an annual revenue of £200,000. Life claims can be settled without reference to England. For further particulars please apply to

TENNENT'S ALE.

In consequence of the indisputable superiority of the ale marked "Tennent," numerous forgeries and imitations have appeared, forcing on the public an unwholesome beverage; and in consequence of the daring falsifications of the signatures, &c., we are obliged to call attention to the following precautionary measures which the manufacturers have been obliged to adopt, to put a stop to the frauds perpetrated on them and the public at large.

1st. Henceforth all importations will have a metallic capsule on the bottle, which will bear the stamp of the manufacturer.

2nd. The corks also will have the following brand, J. and R. 'Tennent.'

3rd. The barrels will be marked by the manufacturer in a manner difficult to imitate.

Furthermore, we feel bound to notify those parties who so openly falsify the marks and brands, that being duly authorised by the manufacturers, we are determined to cite them before the tribunals of the country, and demand the utmost rigor of the law.

Rams—Rams—Rams.

The undersigned, in calling attention to his large and superior stock of Rams and Breeding Sheep, begs to inform his Friends in the Camp that he has on hands a splendid collection of animals, from Three Hundred to Five Thousand Dollars, each, and is confident that each in its class will compete with anything in the province.

In the "Rambouillet type" will be found some fine specimens of the pure blood, besides crossings from the "Merino," possessing the size, shape, and length of staple for which this class is so much admired.

In the "Negrettes" he has also some beautiful animals of pure blood, as likewise the "Negrette" drawn from the "fine Merino," a "Cruz" remarkable for compact shape and close heavy wool.

In addition to the above he wishes to draw especial attention to his celebrated Argentine breed, between the "Rambouillet" and "Negrette Ewe," and which, after seven years' experience, he can fully recommend as combining size and shape with length and weight of wool—qualities so anxiously looked for by all experienced sheep-farmers, and which have given so much satisfaction to those who have already purchased of the class. In buying the above in half three-quarter, and pure blood, already acclimatised, there is an immense advantage, as Rams reared in this country are not so delicate and withstand the winter better than imported animals, besides being sold much cheaper, and only requiring ordinary care.

He can likewise supply the above classes in Ewes, either picked or by the hundred, and wishes to remark that all have been in prime condition throughout the past summer.

THE CUSTOM-HOUSE AGAIN.

The most disagreeable task of a public writer is the denunciation of public abuses: it is easier and more grateful to describe in mellifluous and insinuating eulogy some worthy action or new enterprise that calls for admiring notice. Unfortunately abuses are the order of the day in Buenos Ayres, and one must either give them up as incurable, or run the risk of being set down as a perpetual grumbler, if he would give expression to the moans and lamentations of an injured, unprotected and insulted public.

Oh! for a Peter the Hermit to preach a new crusade against the Moslems of our Custom-house, to rescue it from the profanation of those who maintain that Bilbao is a prophet and that the "Solicitud" is his Koran. The 'vistas' and 'guardias' who trample on our most valued merchandise, break open our cases, and revel in the very sanctuary of Commerce with mate-cup and bombilla, would offer feeble resistance to the united action and vigourous onslaught of our serried ranks if a leader were but found to scale the citadel. The light cavalry of the shipbrokers, the close battalions of the merchants, the heavy artillery of the press, and the 'voltigeur' detachment of clerks and lightermen, only await another 'Cœur de Lion' to sweep the hated foe into the ocean and plant the emblem of Industry on the summit of the Aduana.

It is no longer a question of changing this or that official, it is no personal dislike to any potent upstart whose arrogance, ignorance and indolence are even above the usual mark, it is not the irregularity of one department or the slowness of another, it is not a hereditary sickness of near relations belonging to the absent officials, it is not frequent robberies and goods ruined by careless handling, it is not paper cigars and mate, it is not late attendance in the morning and closing before time; but all these and a thousand more grievances *en masse*, which have driven the foreign and native public to desperation, such as that which preceded the destruction of the Bastille, when popular feeling was goaded to the highest pitch by the memory of a million wrongs till then suffered in silence and in agony.

Sor Bilbao la Vieja has given up the supreme command, and complains with bitterness that the "Standard" which was the first to propose him as a candidate, is now loudest in the popular outcry against him. In this, however, we only echoed the public voice: and by a remarkable coincidence on last Saturday when we were summoned to the Custom-house about an invoice of printing materials [of which the cases were so broken that the clerk hesitated to despatch them] we met the very British merchant who had most labored for Bilbao's promotion, and his rage against the Custom-house vented itself in these words. "The whole institution is infamous, and you must keep at it, like the Hole in the Mole till it be mended."

We understand that Sor Bilbao himself admits the Custom-house is neither so perfect nor immaculate as to be undeserving censure, but he says the fault lies with minor officials whom the Minister of Hacienda will not permit him to dismiss. This bears out our impression that the whole institution is rotten, aye much more so than Varela's rottenest European monarchy, and it matters little whether Aguirre succeed Bilbao, or anybody else, unless these Augean stables be thoroughly cleansed, by turning the river of Reform into the loathsome precincts.

Abolish the mate-cup, get an efficient staff throughout, introduce early hours, restore even the ancient regularity of deposits, put a stop to pilfering, discard the eternal "Solicitud," and place over all a good, active, and accessible man—Otherwise the present hundred-headed hydra will assume before long such dimensions that it will take another Hercules to rid society of the dangerous monster.

THE EXPEDITION against PARAGUAY

DEPARTURE OF THE BRAZILIANS.

EXCITING SCENE ON THE MOLE.

Yesterday at half-past two o'clock precisely the Brazilian squadron weighed anchor and steered for Paraguay. Previous to that hour, as it was known that Baron Tamandare had ordered the ships to be ready, there was as a matter of course great running to and fro; Brazilian sailors racing to their boats, encumbered with pots, pans, vegetables, boat-hooks, portmanteaus, and every imaginable kind of what Cæsar terms "impediments." From early morning the beach was crowded with the imperial fugitives hastening to the Mole, and were it not for the ludicrous character imparted by the jokes of the spectators, the scene must have strongly resembled the flight of Eneas and his Trojans from Carthage.

The adjoining azoteas were crowded with people, the street urchins had quite a holiday on the beach, the shopkeepers and their wives were in a fever of agitation as the awkward squads hurried by, and everybody seemed to enjoy the thing amazingly, except the poor Brazilians themselves. Some of Dom Pedro's officers were in full feather, and looked in earnest, as if the trumpet of Fame had just blown in their ears—'Malbrouch s'en va't en guerre.' Others looked seedy, as if they had been 'on the batter' for a few days' leave. Not a few were evidently 'down in the mouth,' entertaining forebodings that the campaign would be their last, and that Humaytá was not the same as Paysandú. None were indeed pale with fear, or lost their color, but the bystanders laughed excessively, and declared we should never see the poor fellows' faces again, which is more than likely.

Several amusing incidents occurred which were explained, whether truly or not as indignant creditors vainly trying to stop some of the fugitives. A few were accompanied by friends who wished them good luck, but the prayer stuck in their throat when they thought of President Lopez, his 60,000 bayonets, and the Armstrong guns of Humayta.

When we remember how well the Brazilians have conducted themselves during their stay in Buenos Ayres, we are surprised at the total want of sympathy, nay more, the ridicule and disgust with which the spectators seemed to view them on starting for the grand war against Paraguay. The jibes and jeers were not confined to natives; the English sailors cracked jokes thick and heavy about the Imperial blue-jackets. In fact it was a perfect Carnival, and the agitated looks of the Brazilian contrasted strangely with the convulsive laughter of the spectators who never enjoyed a thing so much before in their lives.

The expedition has indeed a gloomy fate to meet, but we can pity the poor fellows hurried to destruction by the unwise policy of the Emperor, without either ridiculing their gait, criticising the color of their skin, or laughing at their distresses.

When all were embarked, the squadron, consisting of 4 gunboats and a steam-transport, got under weigh and proceeded in single file through the channel, shaping their course towards Martin Garcia. They will ascend the Parana by the Boca de Gúazú, as did the three vessels already left; but we much doubt that they will even attempt to go any higher than Corrientes. If they take our advice they will certainly not try it.

Bets were freely given on the Mole-head, of 10 to 1, that we should never see any more of the vessels or their crews, and that this was the last time they would show their faces in Buenos Ayres.

EDITOR'S TABLE.

The Southern Railway works are now out to the Samboromboon, and the locomotives run out to that place, which is we believe some seventeen leagues from town; it is rumoured, we know not with what truth, that the line will shortly be opened to San Vicente, which would really be a great convenience to the public.

The owners of the steamer Iniciador seem to understand their business; they gave a splendid breakfast on board the other day to the residents of Salto, which as a matter of course has made the steamer extremely popular. The steamboat service on the Uruguay never was better than at present. Our friends who come from Entre Rios, &c., speak in the highest terms of the Era, and the extreme civility of the Captain and all on board.

Our attention has been called to the emigration scheme in Bahia Blanca, which two years ago met with the approbation and sanction of Government; but it appears that the concession or grant of the Government has lapsed for non-fulfilment by the contractor. We are informed that owing to the commercial crisis in Europe, and dearness of money, the contractor met with the most unlooked-for difficulties, but that at last he arranged the matter in London. He comes out now for the purpose of carrying the scheme out, and learns to his astonishment that the Government refuses to renew the contract. We are slow to believe that an administration such as that of Sr. Saavedra, which has undoubtedly done so much good for this country, would now embrace a retrograde policy, and put impediments in the way of peopling a desert country, such as Bahia Blanca. The lands in question are of no possible use to the Government, and will probably remain for the next ten or twenty years as they are at present, if the above scheme is not at once taken up and assisted in every possible way by the Government. We feel confident that Minister Dominguez will do what is right in the matter.

Yesterday we received samples of cotton from our friend, Mr. Forrest, whose plantation in Parana is in such a flourishing condition. These samples are on exhibition in our office, and experienced parties state that it is second only to Sea Island.

The sheep business in Entre Rios is making the most rapid strides. From Concordia to Gualeguay the whole country is now under sheep. Several flocks have recently changed hands; 3,500 were sold the other day at 20 rls. in gold, and 1,500 in 3 pats curreney. A splendid ram-breeding establishment is now being got up close to Gualeguaychu by our friend, Mr. Burr. We have no doubt it will prove highly remunerative, as good rams are said to be very dear and scarce. Mr. Burr has imported some splendid rams of different breeds, and has gone to every expense to make it the first and best establishment of the kind in Entre Rios.

Private letters from Cordova say that the Governor has intimated to Dr. Rawson that the causes which demanded federal intervention having been removed, his presence as representative of the National Government is no longer required; the greatest secrecy is observed by both parties, and impartial observers are of opinion that a storm is brewing.

Great preparations are being made in Rosario to receive the bell-ringers, who are expected to arrive shortly in the Pavon.

There are two splendid estancias in Entre Rios now offered for sale; one at Montiel and the other at San Cristobal with sheep, cows, horses, &c. The land is private property and has nothing to do with the Government.

The subscription for the Retiro sufferers has at last been distributed: those slightly wounded got 700 each, those maimed for life 1250 each, and to the nearest-of-kin of those who perished 1295; there are 19 who perished and whose relatives are not known. The President's wife deserves our highest encomiums for her charitable zeal in this matter, as it was by her and through her exertions the subscription was got up.

It is calculated that there are five thousand persons who smoke Havanna cigars, and each of whom smokes on an average five cigars daily; the annual consumption is estimated at nine millions cigars, of which a tenth part are smuggled in. Smuggling seems to be going on at a fearful rate according to our colleague the 'Nacion;' during the whole of 1863 not one pair of gloves passed through the Custom-house, yet there is scarcely any other article of greater consumption; the gloves which we pay $40 per pair for must be made in Belgrano or Barracas.

The Frenchwomen put down the policemen the other night in front of the Bouffes' Theatre. The crowd, it appears, was great and the policemen, instead of keeping out of the way to let the girls pass with their friends, were making themselves rather officious. The girls took the matter up, and compelled the policemen to get out of the way. The affair caused great sport to the crowds in the streets.

The masons have presented Murature with a gold medal for his praiseworthy conduct before Paysandú during the storming of that town.

A friend from Magdalena, just arrived states that the rain extended to that district, and that it appears to have rained more there than here. In Entre Rios we hear the most lamentable accounts of the drought; the grass is all burnt up, and the cattle and horses are in poor condition.

The charges against the Mar Chiquita Judge still occupy public attention. It is to be hoped that the Government will at once dismiss this judge, and name some man less unpopular in his stead.

We perceive that our talented, and we may add diplomatic colleague, Mr. Hector Varela, has honours heaped upon him by his friends both at home and abroad. Only the other day we witnessed him descending from the editorial chair to accept the Consul-Generalship of Montevideo from Flores; and now the 'chasques' which have arrived from the camp, state that he has been elected to represent the citizens of Ensenada or Magdalena. Our colleague must feel rather perplexed at such unmistakable signs of popularity, and we believe must find himself in rather an awkward fix, for if he accept the honor conferred on him by his camp friends, he must give up the diplomatic post he at present occupies, which if he did would serve to make him highly unpopular in Montevideo. We do not think he can take his seat in the Chambers whilst acting as Consul; so the best thing he can do is to resign his seat in the Chambers in favor of one of the editors of the 'Standard.' We hope Sr. Varela will do this, as we would like well to be in Parliament.

A subscriber living in Belgrano has sent us a beautiful sample of cotton grown in his quinta. Would to Heavens President Mitre would call at our office and inspect it. Cotton versus Eucalyptus Globulus, verdict for the plaintiff.

The people in Chivilcoy have been for the last week busy roasting all the cocks and hens in the neighbourhood, expecting the Governor and Finance Minister who left on Sunday for that grain growing district.

Mr. Mortimer has finished his survey and returned to Parana. His survey extended nearly 20 leagues.

The news from the interior is unimportant. In Jujuy the great discussion is about Kerosene. Dr. Rawson has taken all the evidence about the Posse murder, and the assembly is called for the 1st of April.

DARING MURDER AT SAN MIGUEL.

THE MURDERER ESCAPED.

SUICIDE AND MURDER AT BARRACAS.

On Sunday last a frightful marder was committed close to San Miguel church, about 2 p.m. The circumstances are not known, further than a man was stabbed to the heart and the assassin, mounting his horse, fled. Two commissaribs and four policemen at once started in pursuit, but their horses were not able to keep up, and one of the policemen returned after going about 200 yards. In a few minutes the others also came back coolly saying "he has got off," as if it were only a case of pocket-picking or something trivial. Meantime the assassin remains at large, and can boast that he stabbed his victim in noon-day and a most public thoroughfare, without either the police or spectators laying hold of him.

Barracas has been the scene of two tragedies. A negro living in the Calle Nueva, and famous for his libations, went on Sunday morning to a pulperia, when being refused liquor, he drew out a knife and commenced to cut off his head. Some persons in trying to disarm him almost met a similar fate, and his throat and neck were fatally gashed before he was overpowered. His funeral took place on Monday: he leaves a large family.

On the same day a murder was committed in South Barracas, of which the only circumstance known is that it arose from gambling, and the funeral of the victim took place next day. Deceased is supposed to have been unmarried, as the hearse bore white plumes.

These occurrences are now become so common as to excite neither surprise nor horror, but we lament to think that in 9 cases out of 10 the murderer escapes arrest, and in no case meets with the punishment of death as in well-regulated countries.

MONTEVIDEAN NEWS.

The latest papers from Rio contain the severest strictures on Sor Paranhos whom our colleagues represent as again in favour in Rio. The 'Diario' of Rio says that the treaty entered into by Flores and Paranhos is null and void, inasmuch as Paranhos had no powers whatever to treat with Flores; he was accredited to the Argentine not Montividean Government, and that the ultimatum of Saraiva distinctly stated that henceforward the Orientals should treat with Brazilian generals not ministers, and that consequently any treaty that Flores or Villalba concluded should have been with Admiral Tamandare or Marshal Mena Barreto, in order to be valid.

Some of the streets in Montevideo are so badly lighted that accidents occur every night; the oil-lamps are neglected and the gas-pipes have not yet extended far, so that Englishmen who are proverbial for their love of danger confess that the street called Policia Vieja is a most break-neck locality. It is much to be regretted that the Government does not get new lamp-lighters, and adopt kerosene instead of bad oil or mares' grease.

In the neighbourhood of Paysandu several thousand first-class mestiza sheep are for sale at a most moderate price; some of our friends should not miss the chance.

There is great discussion going on in Montevideo as to the object of M. Bustamante's mission to Buenos Ayres; some say that his business was with President Mitre, but we have reason to suppose that his journey was of a literary character, and he only came up to get some dates for his proposed History of the Revolution. The little boat which took Governor Flores from the gas-house, and the oars and sails, have a most romantic interest; these he had to look up and get full details as to where built, launched, &c.

Captain Maldonado is said to be a close prisoner at the Aguada and in imminent danger of his life. We suppose he must be the last of the Blancos.

The 'serenos' of Montevideo are at present very nervous as to their pay, owing to some rumour that the chief of Police has not funds enough to pay them; they are so perplexed that not unfrequently they call out the wrong hour at night: one fellow the other night was singing out 3 o'clock in the morning when it was not even 12 o'clock. The whole force it is said only counts 90 men and they have 296 blocks to keep watch over.

There is positively nothing else talked of in Montevideo save banks, Mr. Ruding's bank, Mauá's bank, Commercial bank are totally insufficient for the business of Montevideo. Buenos Ayres has only one bank, and yet it has gone ahead of Montevideo, why? because that bank is a national bank. Montevideo want one also, paper money like what is in Buenos Ayres would give the proper impetus to trade. A new national bank is the question of the day, capital 16 millions to be secured by the revenue of the water in the bay; many are of opinion that it will be carried out, we hope not.

The Bell-ringers are about to depart: they made a very nice thing of it, and rang their bells to advantage, people are very sorry they are going so soon.

A post prandial journal called 'the Voice of the People' is hushed, it enjoyed but a short existence and the editor became so hoarse calling for subscribers that he lost his voice altogether: there are too many papers at present in Montevideo, another month and some half a dozen will have gone to that bourne——

The French Admiral gave a grand *dejeuner* on board the Astré, his flag ship; the guests were numerous and the speeches sublime. We were promised a report, but as yet have not received it.

The Mersey took from Montevideo, in her last trip to Rio, nearly one hundred thousand pears: the Montevidean pear is the most delicious in South America.

The question about the Tevere threatens, to be a rather serious one, the owner of the steamer has retained Dr. Ramirez the editor of the 'Siglo' to defend his case and it is probable that Barboro the respected owner will win the suit.

The 'Siglo' opposes the resignation of Flores and says that under present circumstances nothing would justify it. It appears Flores does not relish the new Brazilian Minister, and would rather put some one in his place to deal with him.

Cerro Largo has been the scene of the greatest rejoicing on account of the peace, the commander-in-chief has named new judges and alcaldes and every thing is quiet and orderly in that locality now.

In the town of Encarnacion in Corientes there is a force of 6,000 Paraguayans under the command of Virasoro. Colonel Fernandez is getting together some men but he has no army or munition.

Some fellow who is a prisoner in Montevideo gave the police some useful information which led to a descent on a nest of thieves and valuable property has been recovered.

A German concert is being got up for the 1st May several Germans from Buenos Ayres are expected.

Mr. Pereyra, one of the passengers, in the unfortunate Bearn, had a large sum in gold in his trunk which he gave up for lost; luckily the trunk was saved and he got his money.

HORRIBLE OUTRAGES AT ROSARIO.

Our readers may recollect an industrious Englishman some time resident in Buenos Ayres as a house-painter, named Norman and of French descent, who recently came to Rosario and has earned the repute of being the best painter in the city. He is at present engaged in decorating the new and handsome book-store of Sor. Charbonnell in the Plaza. Some days ago a French painter arrived from Buenos Ayres and solicited the job, when Sor Carbounell told him Norman had the contract. Hereupon he asked employment of Norman, and the latter engaged him, but subsequently found him a bad workman and dismissed him. The Frenchman seems to have taken offence, and on Sunday he went to Norman's house, asking to see him, and telling his wife to prepare a poultice as her husband would want one before night. He afterwards met Norman and induced him to drink with him in a house near the Railway. It does not appear whether they had a fight, but the villain contrived to inflict a certain injury on him, which leaves him not only mutilated for life, but in imminent danger of death. The doctors hold out no hopes. The police had timely notice of the heinous crime, but up to the present [Tuesday] the criminal has not been arrested.

Last week a young English gentleman, who had accompanied a friend part of the way home to his estancia, was returning to Rosary, when about half a league from town he met four men, three of them mounted and one afoot, who all seemed drunk and after a fight, as their faces were smeared with blood. The fellow afoot attacked our countryman with his knife, and Mr.—— lost his hat in the scuffle, the other coolly picking it up. The Englishman having no arms took to his heels, pursued by the fellow with the knife, but he luckily distanced him, and on reaching town procured a revolver with which he went in quest of the foot-pads, but they had disappeared.

We advise our friends not to leave town unarmed, as a number of ruffians at present infest the high-roads.

ANOTHER HOLE IN THE MOLE.

President Mitre, Governor Saavedra, and all the Ministers, are requested to take a ramble on the Mole this evening, where a committee of boatmen, sailors, and steamboat passengers will be in waiting to show all their Excellencies the scandalous holes in the Mole, which endanger the lives of all who frequent this dilapidated inconvenience. Yesterday, an unfortunate 'vigilante' or policeman, who was walking down the Mole eating apples, slipped in sword and all. He was rescued by a heroic lottery boy, who, flinging his scissors and tickets to the wind, grasped the descending officer by the brass cap and the coat collar, and thus miraculously saved him. Poor fellow, he thought he had drawn a prize, but found to his regret that it was a blank.

ECLIPSES OF THE MOON AND OF THE SUN IN APRIL 1865.

The first is a partial eclipse of the moon early in the morning of April 11.

The eclipse begins at ¼ before 4 in the morning of April 11. The middle of the eclipse will be at 38m. after 4.0 a. m. The eclipse ends at 5' 31; but the moon will set at London at 5" 11, or 20 m. before the eclipse will end.

At the time of the middle of the eclipse the moon will be in the zenith of a place whose longitude east of Greenwich is 69½dg. nearly and latitude less than 9½dg. South.

The second eclipse will take place on April 25, and will be a total eclipse of the sun, but invisible from England. It will be visible from the great Southern Ocean, from part of South America the Atlantic Ocean, and part of Africa. It will be visible as a partial eclipse at the Cape of Good Hope.

The eclipse will begin at 37 m. past noon Greenwich time, in longitude 88dg. nearly w. of Greenwich and in latitude 41½dg. South. The central eclipse at noon will be 4m. to 2h. P.M. Greenwich time in longitude 29½dg. w. of Greenwich, and in latitude 16dg. 40' S.; and the eclipse will end at 4 h. p. m. Greenwich time nearly, in longitude 31½dg. E. of Greenwich and in latitude 4¾dg. South.

At the Cape of Good Hope the eclipse will begin at 13 m. after 2h. p. m.; the middle will be at 12 m. after 3 h. p. m. when somewhat less than one half of the diameter will be obscured; and it will end at 4 m. after 5 h. P. M. Greenwich mean time.

Relating to Buenos Ayres and the River Plate in general, the eclipse of the moon on the 11th inst, will be visible here at midnight of the 10th–11th, and end about 1. 30 a. m.

That of the sun will commence at 8 a. m. and last until 10 a. m. the degree of obscurity being as 11—12ths or almost total, on the 25th inst.

THE ETIQUETTE OF BEAUTY.

Mr. Leon is commencing a series of publications which will prove highly interesting to Argentine readers and make them familiar with the best works of English literature. Hitherto Buenos Ayres has been deluged with inferior French works, of literary merit but doubtful morality, and we hail with pleasure the appearance of the little work above-named, which besides its intrinsic worth is the herald of others still more important.

Only last Tuesday we mentioned the opening of a new English book-store, by Mr. Loedel, which we are glad to learn is doing a great business, and today we learn that another English book-store is about to be started by two residents well-known to our public.

In this manner English literature and book-sellers will soon be the order of the day. The Spanish version of the Etiquette of Beauty is well translated and tastefully got up. It is on sale at 107 calle Perú.

THUNDERSTORM AT FLORES

In the storm of last Sunday night the god 'Jupiter' seems to have vented all his rage upon the little town of Flores, which we are sorry to hear has been accompanied by loss of life. Two 'centellas' fell in the house of Don Felipe Arana; one falling down the kitchen chimney instantaneously killed the nurse, who was at the time boiling some milk, and another woman who was with her at the time has completely lost her reason. Another fell at the feet of Sr. Arana as he was crossing his 'patio' with a light in his hand, having a narrow escape, as it slightly burnt his clothes.

Some others fell upon some hay stacks and set fire to them.

GREAT INDIGO ESTABLISHMENT AT TUCUMAN.

We had yesterday the pleasure of a visit from a Tucuman gentleman who has favored us with a sample of indigo from his native province. He informs us that intelligent persons have declared it of superior quality, and understood as N.° 9. The establishment whence it proceeds is that of Messrs. Posse and Broussa, and cost 30,000 silver dollars; it was founded last year, by these wealthy proprietors, one of whom is related to the actual Governor of the Province. It covers a superficies of 20 squares, and the indigo is found wild throughout immense tracts, in the neighborhood.

The industry is being so rapidly developed that this factory alone promises to supply all the upper provinces with this article, which is in great use for home-made fabrics. In a short time it is more than likely that Tucuman indigo will find its way into the European markets to compete with that of Central America.

Messrs. Posse and Broussa employ a number of hands, and deserve the thanks of the Argentine Government for setting so noble an example of industry and enterprise. The sample is on exhibition at this office, and we invite the public to inspect it.

CONFITERIA DEL TIRO

We had the pleasure of visiting Mr. Courreur's shooting-gallery the other day, and were pleased to see several new arrangements such as lengthening the range, new self-acting target, &c. He has at present a great shooting match going on in which he gives very splendid prizes, the first one being a valuable gold watch. We advise all our young friends who consider themselves 'cracks' to go and try their hands, as a gold watch for 25$ is cheap. Said establishment is not only amusing but also useful; we would particularly recommend it to some of our 'lions' of the day, who are apt to fight duels without wounding anybody, whereas if they took a few lessons at Mr. Courreur's they would be more sure of their man.

Fire-eater-

BRITISH LIBRARY.

Dear Sir,

As a subscriber to the British Library I would be much obliged if the secretary were kind enough to let the members know why the old edition of Scott's works should be replaced by a new one, as the former is complete, and in my opinion in every respect superior to the latter. I propose as the work is expensive that either one or the other be sold.

BLUE PILL.

ANNUAL CONCURSUS AT THE ENGLISH GRAMMAR SCHOOL.

The examination of the students of this college took place last week, and were, to say the least of them, when the object of the establishment is held in view, the most satisfactory we ever had the pleasure to witness in Buenos Ayres.

It is true, that neither the establishment, nor the distinguished scholar and gentleman that directs it, is unknown to fame, still, for the better satisfaction of the parents of the youths here educated, and to the youths themselves, the present examinations came very *apropos* to justify the hopes of the one and the ambition of the other, and to prove that the superiority which has long since been tacitly assigned to the place as a commercial college, is no more in perspective, but a real matter of fact. For our own part, we do not fail to congratulate all parties on this remarkable success, but more especially those upon whom this most immediately depended, that is to say, the worthy director and his conscientious and laborious corps of teachers.

Meanwhile, we think that the wonderful progress exhibited by youths of native parents, is also in some degree due to the prevailing number of English lads, and not to the number only but also to the class, of boys; for this reason the director would do well to turn a deaf ear to any silly reports of his being aristocratical and *recherche*; at least no Englishman will ever blame him there, for a little circumspection on this head cannot possibly be amiss in this country. No doubt the famous motto of the old Winchester school 'manners makyth man,' has greatly influenced the after career of many a youth brought up there.

We will not dilate upon the result of the examinations. It is useless to enter into details, where everything was surpassingly good. The English and French languages were spoken, read, and written with wonderful precision and correctness. History, ancient and modern, was also well got up; while that distinguished Professor of Mathematics, Mons. Maugin, declared himself entirely satisfied with the results obtained in arithmetic and mathematics.

Before closing this notice, we cannot fail congratulating the following pupils, who conducted themselves to the admiration of all the company present:—Carlos Costa and Julio Costa, especially the former, in French and English; George Temperley, and J. B. Thompson (understood to be well advanced in English) in French and Spanish; while Ami de Chapeauronuge evinced, for a boy of his age, uncommon knowledge of history and geography.

The examiners who were pleased to be present were—In English, the Rev. Mr. Smith and Mr. Lewis; in French, and Mathematics, Mons. Jacques, Maugin, and Casson; in Spanish, Sr. Castro and Dr. Viande.

The distribution of prizes takes place on the 6th, weather permitting.

This was a rather dull day on 'Change, the leading brokers held off, and the others had no orders to fill. The average brokerage for the day's business cannot possibly exceed five dollars each broker; in fact, for years we have not had such a dull day on 'Change: the ship-brokers were *non est inventus*; we could not hear of even a new boat being chartered. In National Bonds there was some speculation; they opened weak for cash at 39. One of our greatest native capitalists is at present dabbling in these securities, it is said with a view to realize.

The Paron and Iniciador came in this morning, and the news from the Provinces was talked on 'Change. It is thought that the sooner Dr. Rawson returns the better.

The old pontoon Castelli was sold at last by Mr. Billinghurst; it realized $41,000, an Italian bought her.

A heavy sale of wool, 50,000 qr. is talked of, but not yet concluded; the wool is in deposit, and about to be brought for the American market.

Established more than Thirty Years.

GOUT, RHEUMATISM, &c.—The sufferings which these excruciating diseases have entailed upon mankind are now likely to be forever annihilated by the use of "Fever's Embrocation." When applied in the most violent and distressing cases of Gout, Rheumatism, Tic Doloureux, Lumbago, Sciatica, &c., it never fails to produce the most happy effects. The combination forming this invaluable remedy is based on philosophical principles, and is free from everything in the remotest degree allied to quackery. Powerful in its effects, and innocent in its composition, it is destined to the highest stand in the medical world.—"Morning Chronicle."

Extract from a letter of J. H. Thomson, Esq., Surgeon, [illegible]

"No family ought to be without this inestimable remedy for Rheumatism, Burns, Scalding-cough, Cramps, Spasms, Erysipelas, Cuts, Punctures, Contusions, Chilblains, &c. &c. The soothing properties of the compound counteract the most painful inflammations and [illegible] matter how virulent or from what cause. The first application will yield to its anodyne influence."

Sold by all Chemists and Patent Medicine Vendors, price 1s. 6d. per bottle.

SAVINGS BANK.

BANK MAUA AND CO.

No. 103 Calle de Cangallo,
BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the two great emporiums of the River Plate, Montevideo and Buenos Ayres. that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Mauá and Co. in Montevideo has already provided for the working classes in that city a safe and profitable depositary for their savings.

The sums deposited in that most important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks, artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immoral gambling, in lotteries, and other frivolities.

The Bank of Mauá and Co. of this city, following the noble example of their firm in Montevideo, now offer the same facilities in this city, and will open a Savings Bank at No. 103 Calle Cangallo, from Nine a m till Three p.m on Week Days, and on Sundays and Holidays from Ten a.m. to Twelve m., for the reception of the savings of the classes already mentioned.

The Bank will deliver to each depositor a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interest will be calculated up to date.

The Bank of Mauá and Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The bank of Mauá and Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighbourhood.

Buenos Ayres, September 19, 1868.

P p. Mauá and Co.
WILLIAM LESLIE

CONDITIONS.

First—The Bank receives at interest any sum from Twenty-five Dollars currency Silver Dollar upwards.

Second—The interest allowed is six per cent. (6 p ☰) per annum, which is liquidated ever six months.

Third—The depositors can at any time retire the whole or part of the money deposited.

Fourth—Once the money deposited exceeds twenty-five thousand dollars currency, or one thousand dollars silver, the depositor, if he wishes, can open an account current, according to the rules established by the Bank.

Fifth—In case the depositor loses his pass book, it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

Bonds purchased, 54,000 hard dollars.
The Bienhechora offers three various modes of Insurance to its subscribers, 1st, with the loss of capital by the death of the Insured party; 2nd, without loss of capital in said event; 3rd, with mere compound interest.
In the first form the Insured party has a right to:
1. To compound interest on the bonds purchased by the capitals received by the Company.
2. To a propertionate share of the capitals and interest of those who die in their respective sections.
3. To a proportionate share of the Capitals and Interests of forfeited subscriptions.
4. To a proportion of gains resulting from increased value of the National Bonds acquired by the inversion of funds.

In the second form the Insured claims:
1. Compound Interest on the National Bonds purchased by the Association,
2. A proportionate share of the Interest due on the Capitals of those who die in the respective sections, which capitals are returned to the subscribers
3. A proportion of the interest due on forfeited shares.
4. A proportionate share of the profits arising from the increased value of the National Bonds, acquired by inversion of funds.

Finally, in the third form, gives a right to the corresponding interest produced by the Bonds purchased with their subscriptions, and the successive reinvestment of such interest, effected quarterly, when the coupons are paid up by the public treasury.

So marvellous are the benefits arising from the employment of Capitals in Public Funds, assisted by the combinations effected by "La Bienhechora," based upon the Mortality Tables of Deparcieux, and the interest produced by the 6 per cent. Consolidated Bonds, that taking for a model, the result given by other companies established precisely in the same form and basis, but with an accumulative interest much inferior to that gained by the "Bienhechora," that it is enabled to present as positive the following tables showing the gradual progression of capitals for a subscription of:

COTTON GINS.

BURGESS & KEY
Obtained the SILVER MEDAL fort their Improved Emary's American Cotton Gins, at the Turin Exhibition.
The Report states that "the two Gins exhibited by Burgess &. Key were found capable of gunning a greater quantity of Cotton than all the other Gins of different systems."
The many improvements made in these Gins by Burgess & Key, have been the result of experiments made on every variety of Cotton, and also from experiences in Egypt, India, Italy, Greece, Smyrna, Australia, &c., &c. where many of the largest Ginning Establishments, have adopted there Gins, and in one case twenty-one of them are used in one establishment, each of which will turn out 300 lbs. of clean cotton per "hour."
The capacity of the Gins varies from 20 to 300 lbs. of clean Cotton per hour, according to the size.
Burgess &. Key's Steam Engines, Horse Works, Presses, Pumps for Irrigation, &c., &c., are specially adapted to cotton growing countries.
